# POLISHED ≠ REAL.

## APPLICANT A

“Your commitment to innovation aligns with my passion for excellence and collaborative problem-solving.”

## APPLICANT B

“Our prototype failed under load. I rebuilt the test process, found our assumption was wrong, and helped deliver a working system two days early.”

# AI RAISED THE BAR.

# RAISE YOURSELF.

RÉSUMÉ → INTERVIEW

**YOUR RESUME IS NOT A  
WRITING TEST.**

**IT IS AN EVIDENCE FILE.**

# AI IS THE EDITOR. YOU ARE THE SOURCE.

## YOU BRING

**Situation**

**Task**

**Action**

**Result**

## AI HELPS

**Select**

**Translate**

**Tighten**

**Tailor**

The model can improve the language. It cannot create the evidence.

# SPECIFIC WINS.

## VAGUE

“Helped with a student organization event.”

## DEFENSIBLE

**Coordinated registration for 200 attendees—closing coverage gaps and cutting check-in from five minutes to two.**

## APPLICATION TAILORING

# MAKE THE MATCH OBVIOUS—FOR ATS AND PEOPLE.

### AI READS THE ROLE

- Extract required skills + tools
- Find repeated keywords
- Separate must-haves from preferences
- Flag missing evidence

### YOU TAILOR THE APPLICATION

- Match only truthful experience
- Mirror the employer's language
- Rewrite relevant résumé bullets
- Draft a specific cover letter

**Optimize the language. Never invent the evidence.**

# **AI CAN POLISH THE SENTENCE.**

# **YOU SUPPLY THE RECEIPTS.**

Your résumé makes the claim. The interview asks you to prove it.

INTERVIEW PREP

# PRACTICE THE CONVERSATION.

What you can prove

Anything on your application must survive all three.

02

# WORK SMARTER

---

# AI ACCELERATES THE PROCESS.

## AI DOES NOT REPLACE THE PROCESS

## STARTING A NEW JOB

# LEARN FASTER. ASK BETTER QUESTIONS.

## AI HELPS YOU LEARN

- Translate jargon
- Build a glossary
- Compare approaches
- Test your understanding

## PEOPLE GIVE YOU CONTEXT

- Why this process exists
- What history matters
- Who owns the decision
- What “good” means here

AI EXPLAINS THE PUBLIC THING. PEOPLE EXPLAIN THIS PLACE.

# FROM TASK → TEMPLATE → TOOL.

01

## TASK

Do it manually  
Understand the goal  
Notice the exceptions

02

## TEMPLATE

Capture the inputs  
Describe the rules  
Standardize the output

03

## TOOL

Automate repeatable steps  
Test edge cases  
Keep review + override

**AUTOMATE THE PATTERN. KEEP THE JUDGMENT.**

# INVITE RESISTANCE.

**“WHAT AM I MISSING?”**

- 01 ASSUMPTIONS
- 02 MISSING INFORMATION
- 03 FAILURE MODES
- 04 COUNTERARGUMENT

WOULD YOU SEND IT?

IF NO: DON'T PROMPT IT.

---

# FOUR QUESTIONS.

---

## TRUE?

Have I verified the important claims?

---

## MINE?

Does this reflect my real work and voice?

---

## ALLOWED?

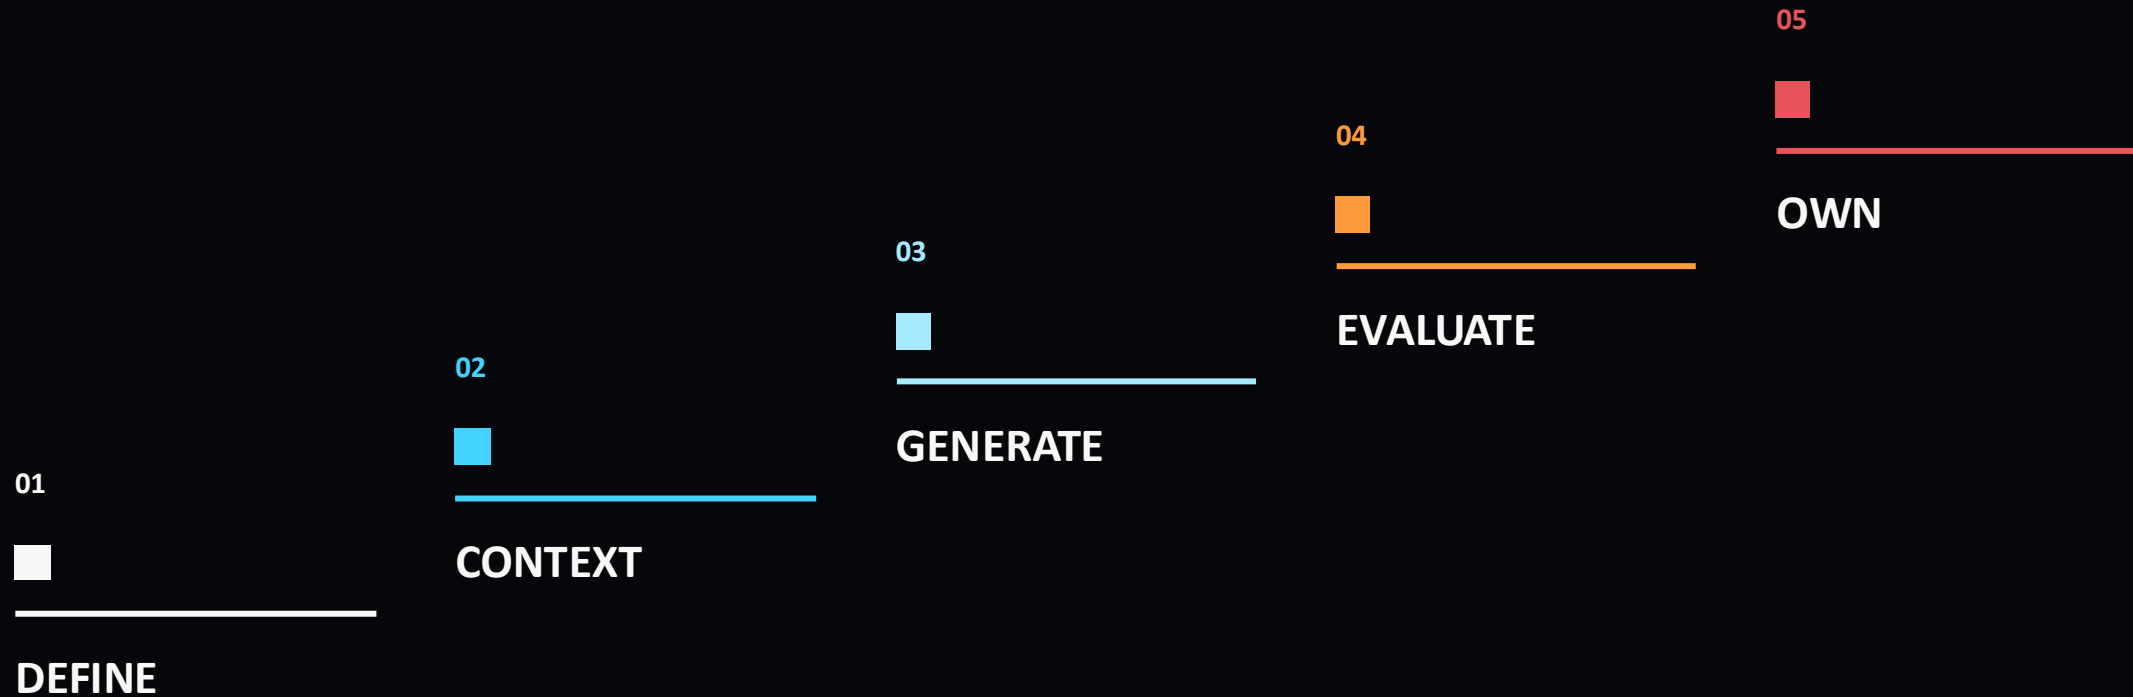

Does policy permit this use?
